**Sub: Fourteenth List of Empanelment of Small Wind Turbines-Reg.**

In accordance with the Modified Scheme for the programme on “Small Wind Energy and Hybrid System (SWES)” which was released by MNRE on 16.04.2010 & 15.01.2016 and the subsequent meeting with manufacturers, the manufacturers have consented to comply with necessary documentation requirement.

Based on the perusal of documentation, as required by the Modified Scheme, submitted by the Manufacturers for their individual models and subsequent signing of the test agreement with NIWE the below stated models are recommended for inclusion in the **XIV<sup>th</sup> List for the Empanelment of Small Wind Turbines.**

The Model wise summary is as follows:

**Empanelled Small Wind Turbines**

The models for which the manufacturers have submitted the Valid test reports from NIWE/ any other foreign/ Indian recognized laboratory along with the other stipulated criteria of the Modified Scheme are included in the following Table and are recommended for Empanelment.

**Table**

Sl. No	Indian/ foreign manufacturer with address/ Indian Sales office with address	Models	Ref Power@≤ 11m/s (W)	Ref annual energy @5 m/s (KWh)	Type	Voltage config.	Foreign Collaborator	Valid type test report	Manufacturing base in India (Yes/ No)	Validity date

**General guidelines:**

- (i) Empanelled Grid-Tied SWT machine must be strictly used only for Captive use.
- (ii) The SWT models Empanelled under Grid-Tied mode can be installed for Off-Grid applications also and vis-à-vis. However, while installing the Grid-Tied machine for Off-Grid application, the SWT manufacturer/ system integrator's/ SNA's/ customer's must ensure that the installation are being carried out as per MNRE SWES scheme/ guidelines.
- (iii) While installing the Empanelled Off-Grid/ Grid-Tied SWT model for Grid-Tied application (only for captive use), the SWT manufacturer/ system integrator's/ SNA's/ customers must ensure that the Inverter is compliant with CEA ratings and follows all the guidelines stipulated by the CEA/ CERC and other concerned state Governments. The SNA's / other Govt. bodies shall insist for CEA rating certificates for the respective models.

The Empanelment status for these models will only be extended based on the submission of the following, two months in advance before the expiry of the validity date:

- a. Those SWT manufacturers/ models which got empanelled in the previous Empanelment list and must provide the details of the SWT installations done (verification address, GPS coordinates, etc.) after the previous Empanelment for each of their SWT models along with the attestation of their respective clients/ owners with dates not earlier than one month from the date of submission of application for renewal;
- b. Proof of valid ISO 9001 certificate based on the ISO standard then in Vogue;
- c. Those SWT manufacturers having a foreign collaborator must furnish current status of their agreement with complete details.
- d. Undertaking from the manufacturer that no deviation have been introduced in the design since the Empanelment of the SWT model; and
- e. Complete contact details of any three customers to enable NIWE to conduct a spot check of the SWT's performance and status of "as-installed condition at site".

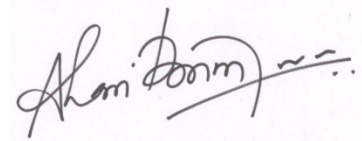

**Disclaimer**

The list has been prepared with the available documents / information provided for the designated models by the manufacturer during the period of review and with all possible care and rigor by the Committee for review of Empanelment appointed by the MNRE, Government of India. State Nodal Agencies, developer and any party refers the list shall verify complete type test reports of the models listed above, including ISO certificate (wherever applicable) for verification of the validity period for empanelled models, detailed specifications, power curve and all other relevant information. Nevertheless, NIWE/MNRE and their scientist and engineers are not responsible for any operation, consequences, including technical, commercial and legal implication that may arise due to the usage of the List by any party. The responsibility for the usage, verification of complete documents and consequences thereof lies entirely with the user. The list may be updated on a quarterly basis.

The list supersedes all previous list announced by MNRE/NIWE.

*Note: The models whose validity had expired as per the interim 13<sup>th</sup> list of Empanelment may be deemed extended up to date of issue of the Interim 14<sup>th</sup> Empanelment List.*
